## *Dedication*

This issue of *Le Diable Bleu* is dedicated to a man who has given to Dillard, in one way or another, since 1949. That was the year that William W. Sutton entered the University as a freshman.

A born leader, he served his class as president during his sophomore, junior and senior years, and was also a captain of the football team.

After receiving his bachelor of science from Dillard, Bill Sutton went to Howard to receive a masters degree and then to the University of Oregon and the University of Rochester to do advance study. Then back to Howard for a Ph.D.

Dr. Sutton continues to make significant contributions to Dillard and the community. Many a student he taught — now dentists, young interns, and doctors of philosophy — now come back to him to say, "Thanks, you helped to make it possible."

Dr. Sutton began his teaching career as an instructor in biology at Dillard in 1965. He quickly rose through the ranks to assistant professor, associate professor of biology, acting chairman of the Division of Natural Sciences and the chairman.

His work has earned him the distinction of membership to numerous scientific organizations, including the New York Academy of Sciences, the Louisiana Academy of Sciences, Beta Kappa Chi Scientific Honor Society, the American Association for the Advancement of Sciences and many, many more. He has presented research papers to the National Institute of Health, and is presently serving as regional director of the institute. He has also been a guest lecturer at several universities.

Dr. Sutton is listed in the 11th edition of "American Men of Science" and the 12th edition of "Who's Who in the South and Southwest."

Dr. Sutton's community and civic involvement is attested to by his membership in many organizations. He is on the board of directors of the National conference of Christians and Jews, the Urban League of Greater New Orleans and the New Orleans Development Services, Inc.

For his achievement in the world of science, his dedication to his alma mater, his rapport with his students and for his civic and community involvement, we think it highly appropriate to honor Dr. Sutton.

# DAWNING

## Foreword

With all things there is a certain degree of change — changes in our lives, attitudes as well as our values. With these changes comes the “Dawning of a New Day.”

In that change occurs from day to day and even from moment to moment, the staff of Le Diable Bleu has sought to capture a portion of that change through this picturesque edition. The happiness, sadness, — laughter, tears, the surprise of occurrences, and the beauty and contentment of those everyday people around us have made our times significant and eventful.

Thus, we have attempted to capture a portion of these significant and eventful moments in this compilation bringing with it the best of wishes for change and progress, which this edition of Le Diable Bleu denotes.

This is the “Dawning of a New Day!”

## *President's Message on The Dawning of a New Day*

The past decade had all of the promise to bring this nation to the first full fruition of its earliest birthright as symbolized by the apparent success of the social, legal and educational efforts which culminated a half century of struggles and victories in the Civil Rights movement. Those efforts aimed to unify our society by making opportunity, justice, education, achievement and dignity a common bond and quest of all Americans. Instead, by 1966 the whole process was suddenly twisted into a new pattern of violence, abrasiveness, polarization and heightened racism and intolerance in all groups of our society. This distortion virtually reduced both the meaning and essence of Civil Rights to a mockery.

There is now a further threat of possible complete regression to a totally re-segregated society. Each group in this nation seems to have its own way of contributing to that result. Both the threat and the pattern over the past six years have been no less real than was seen almost a century ago when the Reconstruction Period was suddenly nullified along with all of the hard won gains of the anti-slavery organizations and the missionary associations which among their other good works had founded this institution and her sister institutions and chartered them to be the first institutions in the South to provide opportunity and learning for all persons regardless of race or color. The total segregation of our society which later crystallized, was as brutal in its human cast as the prior period of slavery had been.

In spite of the present threat of general national regression, there is here in the South genuine evidence of the dawning of a new and truer Civil Rights commitment and a new development of sound social, political, economic and educational leadership patterns which will again point toward the search for that original realization of unity and dignity. Paradoxically, it is coming because of the realization of the tremendous cost currently being paid by all Americans during this brief period of sacrifice of total integrity.

Unfortunately it was the good people in higher education and in the intellectual and spiritual leadership of the nation who undertook the major leads away from the Civil Rights commitment and toward the confusion which presently prevails. They are as responsible as any others for the fact that we came so close but did not achieve the moral and national goals that were possible. Paradoxically also these people and their organizations were mainly outside of the South while the South itself was making sound progress.

Both higher education institutions and persons trained in higher education played a large part in returning our nation to the same condition of intolerance that we left ten years ago. Our nation now finds itself as polarized as ever before right at the time that our society should have its highest commitment to unification and its greatest opportunity to become one nation under God by respecting all men and women for their inherent worth, and by providing to all persons the maximum opportunity for both self-development and beneficial contributions to others as brothers in mankind.

We think that enough people now see quite clearly the danger of the history of a century ago repeating itself. They will not want the present and future generations of Americans subjected to that repetition.

Yes, we faintly but confidently see change in the present confused climate. The best sign of that change is reflected in the new quality of seriousness and in the enhanced appearance of commitment to personal achievement by Dillard University students. They are reflecting a renewed faith and a renewed hope. They are in their own modest way re-heralding the almost missed new day. For this we are most grateful and significantly renewed in the faith that we as a nation will some day come together and be a nation in reality, in mutuality and in brotherhood one with another.

## *President of Student Union*

Today, as we prepare to enter into vacuum of tomorrow, there are certain points that we must all take into account. These points are unique in that they must distinguish our individual behavior from our collective activities.

Although tomorrow dictates the avenue that we must take today, today is forever making history yesterday.

Each day is a novel experience, we must renew our ideas continuously or forever drift into despair.

The machine behind the sophisticated enslavement of human dignity is: technology, ideology, and to a large extent self-appointed prophets.

At the inception of industrialization, man made machines, however, today as we travel as fast as the speed of sound, machines are beginning to mold man.

I am hopeful that the individuality of each man is restored back to its proper perspective; that his erroneous personality be his patriotic teacher.

As one existential philosopher writer:

Yesterday I loved  
Today I Suffer,  
Tomorrow I Die.  
Yet Yesterday and Tomorrow  
I fondly dwell  
Upon Yesterday

— Soren Kierkegaard —

Progress is unique in that it takes man a lifetime to strive to reach the point of perfection that he never really attains. Our theme "The Dawn of a New Day" represents progress and notably man's climb to perfection. Even though man never reaches that point of perfection accomplishments are made and man rises to a height that scales the gleaming of new and significant dawns.

In man's search he has accomplished many significant endeavors and he has met and conquered numerous challenges. Thus he is explorer of the moon, stars, and planets. He is the dominating figure of the complex planet earth. He is the creator of wars, nations, love, hate, chaos and peace. Therein, man holds a unique combination of entities some negative and positive. Because of man's uniqueness and ever prevailing awareness of "the now," he has progress. And herein is The Dawn of a New Day — our challenges, our wars, our loves, our peace and our chaos. The finality of each individual's life is left to him and each has his own dawn.

Throughout the years, the zenith of Alpha Kappa Alpha Sorority has been the promotion of high scholarship and ethical standards. Initiating the organization of sororities among Blacks on January 16, 1908 at Howard University, Washington, D.C., Alpha Kappa Alpha evolves toward the accomplishment of both friendship and unity among college women.

Initiators of the first Negro fraternity, the men of Alpha Phi Alpha Fraternity continuously dawn "the light of the world" by striving toward the accomplishment of manly deeds, scholarship and love for all mankind.

Established on December 4, 1906 at Cornell University, Ithaca, New York, Alpha Phi Alpha has progressed annually. Beta Phi Chapter of Dillard is proudly proclaimed "a great link" in that progressively ideal Fraternity.

Delta Sigma Theta was founded in 1913 at Howard University. The twenty-two young women who were its founders envisioned an organization of college women that would minimize the purely social aspects of Sorority life.

Today, women of all races and faith who meet the requirements in character, scholarship, and citizenship responsibility are welcomed into membership in Delta Sigma Theta. From the small original group, Delta has grown to embrace 20,000 women with 240 chapters in 46 states and the Republic of Haiti.

# Omega Psi Phi

On November 17, 1911, Dr. Ernest Just, Edgar Love, Frank Coleman and Oscar Cooper founded the Omega Psi Phi Fraternity Inc. at Howard University in Washington, D.C. On May 5, 1936, Theta Sigma Chapter of Dillard University was founded.

Our motto is "Friendship is essential to the soul." With this motto the founders also set forth the four cardinal principles by which all Omega men attempt to live, Manhood, Scholarship, Perseverance and Uplift.

Zeta Phi Beta Sorority had its beginning at Howard University, January 16, 1920. Members of Phi Beta Sigma Charles Robert and Samuel Taylor spoke to a young lady, Arizona Cleavor, concerning the establishment of a sister organization at the University. The young lady willingly accepted the task and immediately began to work upon it. Thus as a result, Zeta Phi Beta was founded as a sister organization of Phi Beta Sigma.

On January 5, 1911, at Indiana University Campus, Elder Watson Diggs, Byron K. Armstrong and John M. Lee founded Kappa Alpha Psi Fraternity.

Beta Gamma Chapter of Kappa Alpha Psi was founded at Dillard University on December 12, 1936. This chapter has perpetuated the noble doctrines of Kappa Alpha Psi, for men of Beta Gamma Chapter have played an instrumental part in student life at Dillard University for the past thirty years.

Alpha Phi Omega was born in Brainerd Hall now Hozz Hall, at Lafayette College in Easton, Pennsylvania. The fraternity was founded by Frank Reed Horton on Dec. 16, 1925. Horton's motive for instituting this organization was to initiate one which could withstand the test of time; an organization which men might better the conditions of other men, as well as themselves.

Chi Upsilon chapter, at Dillard University, was founded in the spring of 1971, and is an ever growing chapter of Alpha Phi Omega.

Alpha Phi Omega is a national service Fraternity whose aim is to develop leadership, to promote friendship and provide service to humanity.

### *Dillard Students Spend Summer at Graz Center*

Isaiah Harris and Lionel Brooks of New Orleans spent last summer attending the Graz Center in Graz, Austria.

The Center is a summer school emphasizing international education for both American and foreign students. The program at Graz centers around the disciplines, of history, philosophy, political science, music and the languages.

Both of the students, majors in political science, were chosen because it was felt that they would benefit most from the program being offered at Graz.
